Colour palette

Colour palette

Core

Our core colour palette consists of six colours that all work together to help us stand out.

To retain and increase our brand equity, applications must always feature Brunel Blue in some form.

Cracknell Cerulean must never be used as a background colour if seen alongside either the crested logo or core logo.

Colour palette
Secondary

Our secondary colour palette consists of 16 supporting colours that have been specifically chosen to work alongside the core palette.

To bring flexibility, a range of bright and muted colours make up our secondary colour palette. These colours can be used on their own or in carefully considered combinations.

Single colours in the secondary palette must never be used to represent a school or college. The only exception to this is Oyepitan Orange which is used across the Design School.
